---

Just saw that I said we were collecting ESI for Texarkana and Ambrosia. Should be Brine and Ambrosia. Will change that.

**Subject:** Region 6 Production

Folks – Please let me know before 3pm central today whether you have any comments on the draft email to Anadarko below. Please be sure to let me know if anything is inaccurate as this may come up in court next Tuesday. Also, as a reminder, we are planning to speak again Monday January 31 at 9am central/10am eastern, on (b) (6).

Thanks,  
 Marcello

Duke,

The United States has identified responsive paper documents in the custody of EPA Region 6 related to the following sites:

1. Ambrosia Lake, NM Uranium (RCRA NM7890099925)
2. Beaumont, TX Wood Treating (RCRA TXR000032987, SF TXD980625636)
3. Bossier City, LA Wood Treating (RCRA & SF LAD000778431, SF LAD985223296)
4. Calhoun, LA Gas Plant (RCRA LAD000757401, SF LA0980879431)
5. Cotton Valley Refinery, LA Refinery (RCRA LAD000225805)
6. Dubach, LA Gas Plant (RCRA LAD985110194, SF LAD062926217)
7. Churchrock, NM Uranium (RCRA NMD060632890)
8. Texarkana, TX Wood Treating (RCRA & SF TXD057111403)
9. Hugo, OK Wood Treating (SF OKD082708371)

With the exception of Texarkana, the responsive material occupies less than 2 boxes total, and the Region will begin scanning it this week so it can be produced electronically. The Texarkana collection is larger and is presently undergoing privilege review.

Also note that the United States has already produced responsive SDMS documents for the Brine Service Site (RCRA & SF TXD063099360), and there is no additional unique paper material in the Region's custody. The United States has also served, or will serve in its next supplemental production, several documents relevant to the Ambrosia Lake/Grants Mining District and to several wood treating sites.

The United States is still determining whether it has responsive paper documents for any additional sites located within Region 6, and will supplement its production accordingly.

Last, the Region is presently collecting ESI for the Texarkana and Ambrosia Lake sites, and is still determining whether it has any responsive ESI for any additional sites located within the Region.

Please disregard the Region 6 index served as Exhibit 3 to Joe Pantoja's October 25, 2010 letter, as this email supersedes that index.

Thanks,

**Marcello Mollo**
